FINANCIAL INTELLIGENCE AGENT

Agentic RAG • Financial Document Intelligence • AI-Powered Analysis

Purpose
Use this PDF as sample input for testing a Financial Intelligence Agent. It contains synthetic company information, financial statements, management commentary, and example questions.

Document profile

Company	Northstar Components Ltd. (fictional)
Industry	Industrial components manufacturing
Reporting currency	Indian rupees (■), amounts in millions unless noted
Reporting periods	FY2024, FY2025, FY2026
Data status	Synthetic sample data; not real company information

Important note

This document is created only for application development, retrieval testing, and demonstrations. All company names, values, events, and commentary below are fictional. Do not use the sample figures for investment, lending, tax, or other real-world financial decisions.

1. Executive Summary

Northstar Components Ltd. manufactures precision parts for industrial equipment. Revenue increased from FY2024 to FY2025, then grew more slowly in FY2026. In FY2026, gross margin and operating margin declined as material costs and logistics expenses increased. Management reports that a portion of the higher cost base was associated with supplier price changes and expedited freight.

Management also reports that cash generated from operations decreased in FY2026 while inventory increased. The company is reviewing procurement terms, inventory planning, and selected product pricing. These statements are management-style sample commentary and should be verified against the financial tables below.

2. Income Statement

Amounts in ■ millions, except percentages.

Metric	FY2024	FY2025	FY2026
Revenue	1,200	1,380	1,435
Cost of goods sold	780	897	975
Gross profit	420	483	460
Operating expenses	270	310	335
Operating profit	150	173	125
Interest expense	24	28	32
Profit before tax	126	145	93
Tax expense	32	37	24
Net profit	94	108	69

3. Balance Sheet Snapshot

Amounts in ■ millions at the end of each fiscal year.

Metric	FY2024	FY2025	FY2026
Cash and cash equivalents	95	102	84
Accounts receivable	140	156	171
Inventory	160	184	225
Total current assets	430	472	505
Total assets	890	970	1,025
Total current liabilities	250	290	335
Total debt	210	245	285
Total equity	390	415	420

4. Cash Flow Snapshot

Metric (■ millions)	FY2024	FY2025	FY2026
Net cash from operating activities	120	132	91

Metric (■ millions)	FY2024	FY2025	FY2026
Net cash used in investing activities	(65)	(78)	(82)
Net cash from / (used in) financing	(30)	(42)	(27)

5. Management Commentary

The following statements are fictional and are provided as retrievable evidence for the demo application.

Revenue

Revenue increased from ■1,380 million in FY2025 to ■1,435 million in FY2026. Management attributes the increase to stronger demand from two industrial customer segments, partly offset by lower demand in one legacy product line.

Material and logistics costs

Management says higher supplier prices and expedited freight contributed to the increase in cost of goods sold. The report does not quantify the individual contribution of each factor.

Operating expenses

Operating expenses rose from ■310 million in FY2025 to ■335 million in FY2026. Management cites additional maintenance, software, and workforce training expenses.

Inventory and working capital

Inventory increased from ■184 million to ■225 million between FY2025 and FY2026. Management is reviewing purchasing frequency and slow-moving stock. No inventory ageing schedule is included in this sample.

Debt and interest

Total debt increased from ■245 million in FY2025 to ■285 million in FY2026. Interest expense increased from ■28 million to ■32 million. The sample does not provide debt maturity dates or interest-rate terms.

Outlook

Management plans to review supplier contracts, improve inventory planning, and assess selected product prices during FY2027. No numerical forecast is provided.

6. Definitions and Formulas

Metric	Formula
Revenue growth (%)	((Current-period revenue – Prior-period revenue) / Prior-period revenue) × 100
Gross margin (%)	(Gross profit / Revenue) × 100
Operating margin (%)	(Operating profit / Revenue) × 100
Net profit margin (%)	(Net profit / Revenue) × 100
Current ratio	Current assets / Current liabilities
Debt-to-equity ratio	Total debt / Total equity

7. Example Questions for the AI Agent

• Summarize Northstar Components Ltd.'s financial performance across FY2024–FY2026.

• Why did operating profit decline in FY2026 even though revenue increased?

• Calculate revenue growth for FY2025 and FY2026.

• Calculate gross margin, operating margin, and net profit margin for all three years.

• Compare the changes in inventory, total debt, and operating cash flow from FY2025 to FY2026.

• What potential financial risks are suggested by the provided data? Separate facts from interpretations.

• Which management statements support the explanation for higher cost of goods sold?

• Does this document provide enough evidence to identify the exact cause of the profit decline? Explain limitations.

• Create a comparison table for FY2025 and FY2026 with citations to the relevant sections.

• List missing information that would improve a more complete risk assessment.

8. Expected Response Format

Direct answer: Answer the user's question in plain language.

Key figures: Show the relevant values, units, reporting periods, and any calculations.

Evidence: Cite the document section or passage supporting each material claim.

Interpretation: Clearly distinguish facts in the document from analysis or inference.

Limitations: Identify missing data, ambiguity, or unsupported conclusions.

End of sample input document.
